

Constructing Excellence Bristol Club
Here to Learn Workshop

Procuring our way to sustainability

Wednesday 24th February 2010,
3.30pm-6.00pm

Although some sectors of the construction industry came out of recession in the third quarter of 2009 the procurers and suppliers of construction products and services still face major challenges. Private sector new work has continued to weaken and the Government is under severe pressure to cut public spending. Overarching all of these is the need to create a low-carbon built environment.

This, the fourth Here to Learn workshop, will focus on how to procure construction products and services in a way that will bring about the innovations needed for a **green recovery** from the recession. In other words, how we can change procurement practices to inspire and empower customers and suppliers throughout the supply chain to bring about the transformational advances needed to mitigate the effects of climate change.

Venue:
University of the West of England,
Bristol
Room 4Q50, Q Block, Frenchay
Campus, Coldharbour Lane,
BS16 1QY

Date:
Wednesday 24th February 2010

Time:
3.30pm – 6.00pm
(Tea, coffee and biscuits will be
served from 3pm)

Cost:
BCEC and CE members – £25

Who should attend?

Representatives from the region's procurers and suppliers of construction products and services including clients, procurement advisors, BREAAAM assessors, principal and specialist contractors, manufacturers and suppliers, but especially those with the motivation to create additional economic, social and environmental value through innovation and synergistic collaboration in project processes.

The workshop will take account of the following aspects of the Club's change agenda:

Drivers for change

- Committed leadership
- Focus on the customer
- Sustainability
- Quality driven agenda
- Commitment to developing green-collar people

Focus of improvements

- Whole life cycle perspective on products and services
- Supply chain management
- World-class construction organisation

Targets for improvement

- Scope and effectiveness of whole life cycle perspective
- Pervasiveness and effectiveness of supply chain management

The workshop, which will be very much hands on and participative, will be facilitated by Martyn Jones from UWE.

How to book

Places on the workshop are limited to a maximum of 30 to ensure good interaction so do book early to avoid disappointment by contacting Christopher Roles at Morgan Ashurst: **Christopher.Roles@morganashurst.com** or by completing the booking form below.

The preferred payment method is by electronic transfer through BACS direct credit: The Bristol Club's Account Number is 02902861 and Sort Code 30-00-01.

Alternatively, you can pay by cheque made payable to 'Bristol Constructing Excellence Club'.

Booking Form

Please photocopy this for each additional delegate
